

CybarWorks

Postcard 1: Veterinarian Clinics (with image of appealing animals)

You Do Your Best for Them, We Do Our Best for You!

CybarWorks is the last IT partner your veterinarian office will ever need! We've been serving small to mid-sized business in Arizona since _____ and we've got the systems in place to support all your IT needs.

Keep Connected

Networking is the foundation of the IT side of your business. We can develop a secure wireless or cable network that works for you.

Making the Web Work for You

CybarWorks has the expertise to build your Internet presence to match your needs, including flexible websites that work on desktops, laptops, tablets, and phones, so your clients have access to the information they need, from wherever they are.

Managed IT Services

When CybarWorks manages your IT services, we keep everything working together: 24/7 performance monitoring, remote backup for your important data, antivirus monitoring and patch management to give your system the most up-to-date security, firewall management, and health and performance reviews for all your IT systems, and ensuring that your PC and wireless devices work together effectively.

Visit us online at cybarworks.com to learn more about what we can do for you!

Postcard 2: City Government Agencies

We Keep IT Working

CybarWorks has been working with Arizona municipalities since _____ to keep their technology trouble-free and ready for any emergency, at a reasonable cost.

Keep Connected: We can develop a secure wireless or cable network that meets the specific needs of your agency or department.
